**PO Box 62720, London SW2 9FQ Tel: 020 8265 2880 info@SaferMedicines.org**  
**www.SaferMedicines.org**

Our medicines are killing us! Adverse drug reactions have reached epidemic proportions, sending a million Britons to hospital and killing more than 10,000 every year. Yet new technologies *are* available to predict adverse reactions that current methods (chiefly animal tests) cannot predict.

**We the undersigned call on the Government to mandate the use of new technologies that can predict the safety of medicines for patients more reliably than current methods.**
